On the behalf of our camp leaders Lea, Robin, Kolja and Vivien, we cordially invite you to join „Land unter?“ 2024.

Yours in scouting

Tom & Jakob (International department of the Landeslager 2024)

Landeslager

12.- 22. August 2024

Lift it up!

A very special summer experience

Next summer we are going to celebrate a unique camp. The Landeslager is the highlight in the calendar of the VCP Hessen. We are expecting **ca. 700 scouts** and guides to spend **eleven days** together. **The motto of the 2024 Landeslager couldn't be more serious: Land unter?** It refers to the challenging **climate crisis**. But there is a „? “ behind the motto. **Are we able to make a difference?** In our humble opinion we think: yes! As scouts and guides we also promised to take care of nature and improve structures of a community who cares and who helps. And as scouts and guides we know exactly that this effort cannot be successful without playing and singing together. We are also prepared to have fun.

The Landeslager gives the opportunity to improve and share your skills while having new experiences. How can we protect nature? How can we minimize pollution and our co2-emissions? How can we become active in politics to support the protection of nature?

We try to realize a big camp with low emissions and high pleasure, with small amount of garbage and a big amount of fun. We are going to have **vegetarian camp**. Additionally, we try to avoid emissions for example, by using **public transportation** if possible.

Scouting & guiding is a local movement – worldwide. We think that internationality is a fundamental part of the spirit of the scout movement. And we are eager to learn from you!!! Your skills, your ecological efforts, your games, your songs!

Especially when you must travel a big distance, transport is crucial. **We also support you in these questions, please contact us.**

Ragazzi, copains, folks, companeros !!!!!:

Do you want to come to the „Land unter? “

Basic information:

***Where: Tydal** – a scout campsite near Eggebek. This 25 km from Flensburg (border to Denmark) and the Baltic Sea, 50 km from the North Sea, 150 km from Hamburg)
