

Registration Guide for International Scout Groups

Even if your Scout Group has pre-registered for Jamboree26, you must fill out a new registration.

1

Create Participant Registration

The first step in registering your Scout group for Jamboree26 is to gather the information required by the organisers. [Here you'll find a complete list](#) of all the questions included in the Jamboree registration form. By preparing your registration based on this template, you'll make the following steps in your group's Jamboree26 registration process much easier.

2

Share the Registration Form

Share the registration form you've created with your scouts. Give them a reasonable amount of time to respond, but don't wait too long before moving on to the next step.

3

Compile the Responses in a Template

The registration process will take place in Scoutnet (membership database for Scouteria, which is used by Jamboree26). To make this smoother, we recommend using [the template available for download here](#). By using this template, you'll be able to import your participants' responses directly into Scoutnet.

Instructions for the Template File

- a. Do not remove the header row - row 1 will be ignored during import.
- b. Do not change the order of the columns or add new ones.
- c. Numerical ISO country codes can be [found on Wikipedia](#).
- d. All dates should be written in the format YYYY-MM-DD.

4

Register the Applicants in Scoutnet

You'll find the registration form for Jamboree26, made in our own system Scoutnet, at <https://jmbr.ee/register-group>

If your scout group has previously registered for an event in Scoutnet, you can use the same account again. Otherwise, click on the Registration button to create a new user account.

5

Group Registration for Jamboree26

Once your participants have completed their individual registrations it's time to submit your group's registration for Jamboree26. Make sure you're signed in to Scoutnet and use the following link to fill out your registration:

<https://scoutnet.se/activities/register/for/activity/52710/lang/en>

6

View Your Group's Registration

Click "View registration".

7

Enter your Participants' Details

To complete a participant's registration, all questions in Scoutnet must be answered. You can copy the answers from your own form or import [the Excel template](#) if all information has been entered correctly. **Make sure to only import the Excel file once, as otherwise your participants will be imported twice!** You'll also need to select a participation fee, and thus the duration of participation for each participant based on the options available for Jamboree26.

Export a list of your participants

To export a participant list of your group's members, open your group's registration and go to the "Reports" tab.

10

Download the list

Click the second button named "Download" on the right to download an Excel file with all registered participants.

Notes

- i. All adults on Jamboree26 will have to take the Safe from Harm online training. A link to the English version of the Safe from Harm training will be available on jamboree.se in early 2026. A link will be emailed when available.
- ii. To participate as a volunteer staff, you must have presented an extract from the criminal record of your home country before beginning your participation at Jamboree26.
- iii. When completing the registration form, international participants must indicate which National Scout Organisation (NSO) they belong to. This applies to both group registrations and staff applications. After the registration period has closed, the Jamboree Team will contact the International Commissioners (ICs) of the listed NSOs to verify that each group or staff member is affiliated with an NSO that is a member of WAGGGS and/or WOSM.

Once registration closes, we will send you more information about Jamboree26.

See you in Sweden!
